

▪ Tuesday, September 19, 2023

- Provided overview of the Tuesday, September 5, 2023, Council Meeting and the Monday, September 18, 2023, Council Meeting.
- Police Department (TPD):
  - Lt. Troxel attended the eleventh annual Oregon Fallen Badge Foundation Golf Tournament. There were over 250 golfers from all over the State of Oregon who converged at Pumpkin Ridge Golf Course. Both the public and private side of Pumpkin Ridge was used. Lt. Troxel was not golfing, rather he was helping with all the set-up, take down, and other necessary tasks to ensure that foundation had a well-run event and raised money for their important cause.
  - Our Tillamook Police Department was busy this week with several new criminal cases, traffic citations issued, and arrests made. While school is back in session, our police department is still busy with what feels like summer level activity.
  - Lt. Troxel meet with TFCC (Tillamook Family Counseling Center) Crisis to ensure connectivity between the Police Department and the Crisis Team. We are so thankful for our rich partnership with TFCC and the Crisis Team. Conversations about Crisis Intervention Training continue with TFCC, TPD, and the Tillamook Hospital.
  - Don't forget that on Wednesday, September 20 (tomorrow), the Tillamook Police Department will have Officer's at Starbucks for "Coffee with a Cop". Thank you to Starbucks for providing this opportunity for our citizens to interact with our Officers.
- Public Works (PW):
  - Water Distribution division will be fixing a leak on our water transmission main south of town off the shoulder of the highway. Please be cautious driving through the work zone.
  - Door hanger late payment notices will be going out today at noon.
  - Street division will be working on trying to get a load of wood chips for Goodspeed Park and Coatesville Park. These wood chips must be special anti-silver engineered chips. Furthermore, we must travel to Portland to get them, so we appreciate everyone's patience as we work to improve Goodspeed Park.
  - The new street sweeper will be out hitting a few routes throughout town.
  - The Water Treatment division is working on a couple of issues that arose at the WTP. Working alongside the Water Distribution division, they were able to work fast yesterday to get the water plant back online and will be finishing the rest of the work throughout the week.

- PW would like to thank everyone for making the *Movie in the Park* night very successful last Friday at Goodspeed Park. The turnout was great, and it was fun seeing everyone enjoy the movie!
- We have several positions available and are looking for applicants in the Public Works Department. Effective the middle of September, our starting employee wages have been increased to market rate for comparable cities in Oregon and on the Coast. We are confident this will help with employee attraction and retention. Please visit our website or stop by City Hall for an application.
- A reminder that if you see something, say something by calling 911 for emergencies or Dispatch for non-emergencies.
- The next Council Meeting will be held on Monday, October 2, 2023, at 7 PM. We encourage anyone interested in your local government to attend.
