

# Hoquarton Waterfront Plan - A Look to the Future of the Hoquarton Area

The Hoquarton Area Plan project is partially funded by a grant from the Transportation and Growth Management (TGM) Program, a joint program of the Oregon Department of Transportation and the Oregon Department of Land Conservation and Development. This TGM grant is financed, in part, by federal Moving Ahead for Progress in the 21st Century (MAP-21), local government, and the State of Oregon funds.

The goal of the Hoquarton Area Plan project is to develop a unified vision for the Hoquarton area. Although the district hosts a mix of conflicting land uses and vacant lots, opportunities for recreation and economic development are present. As a means to capitalize on these opportunities, develop a cohesive identity, and celebrate its rich history, **the City's objectives are to (a) create a plan for infill and redevelopment, (b) identify multimodal improvements to improve pedestrian and bicycle connections across US 101 and to downtown and (c) enhance and highlight access to Hoquarton area parks and trails.**

The above brief introduction is from the first Memorandum in April 2015. To review all of the Memorandums please click the following links:
